I reported to the Doctor current and/or previous diseases and therapies in progress.

I had the opportunity to ask questions about the vaccine and the state of health of the child, I obtained comprehensive answers and I understood them.

I was clearly informed. I understood the benefits and risks of vaccination, modalities and therapeutic alternatives, as well as consequences of a refusal or renunciation of receiving the booster dose.

I am aware that if any side effect occurs, I am responsible for immediately informing my family doctor and for carrying out the instructions.

I agree to remain in the waiting room with the child for at least 15 minutes after the vaccination in order to ensure that no immediate adverse reactions occur.

I consent and authorize the inoculation of the vaccine _____
